PROFESSIONAL SUMMARY

Multidisciplinary designer with nearly 1.5 years of experience across graphic design, UX/UI design, web design, video creation, and AI-assisted visual content. I use design tools to understand business goals, customer needs, and audience behavior, then turn ideas into clear visual communication. Experienced in creating brand visuals, social media campaigns, websites, videos, and marketing assets that help businesses communicate with clarity and build a stronger presence.

EDUCATION

Bachelor of Commerce (B.Com), Sree Saraswathi Thyagaraja College Graduated 2023
UX/UI Design Certification, Profenna Infotech, Pollachi 2024

SKILLS

Design: Graphic Design, UX/UI Design, Web Design, Visual Design, Brand Communication, Poster Design

Tools: Figma, Adobe InDesign, Adobe Photoshop, Adobe Illustrator, Canva, Antigravity

Content & Motion: AI Video Creation, Video Editing, Content Writing, Social Media Creatives

EXPERIENCE

UX/UI & Graphic Designer Mar 2025 – Present
HUMEXPRO Hybrid

- Created graphic design assets, social media creatives, marketing visuals, and brand communication materials for business requirements.
- Designed responsive website interfaces in Figma with a focus on clear hierarchy, usability, audience needs, and business goals.
- Produced video content and AI-assisted visual campaigns, translating ideas into engaging communication for digital platforms.
- Used Adobe InDesign as a primary production tool alongside Photoshop and Illustrator for polished layouts and visual assets.
- Collaborated on content and design execution across multiple formats, adapting visuals to different audiences and campaign needs.

PROJECTS

JewelMark Social Media Branding & AI Video Campaigns. Created brand-focused social media visuals and AI-assisted video content to improve consistency, storytelling, and audience communication across digital campaigns.

Company Website Design. Designed modern web interfaces and page experiences in Figma, balancing visual identity, clear information hierarchy, usability, and responsive behavior.

UX Design Projects. Developed user-centered interface concepts by understanding user needs, simplifying flows, organizing content, and creating clear digital experiences.

ADDITIONAL STRENGTHS

Audience-focused visual communication • Cross-functional design thinking • Fast adaptation to new AI creative workflows • Ability to work across branding, digital design, web interfaces, and video content
